

The Holy Sepulchre.

Capt. Conder, of the Palestine Excavation Fund, asserts that he has made a new and important discovery as to the site of Calvary and the Holy Sepulchre. The tomb he has found is a solitary one, different from the old type of Hebrew tombs. It is near the spot where Stephen is supposed to have been stoned, and contrary to Hebrew style, contains, after the manner of Greek tombs, a shelf where two angels could have sat, one at the head and the other at the feet. The locality now known as the Holy Sepulchre, and covered with a church of that name, is an old Jewish tomb which was discovered in the time of Emperor Constantine. Although popular sentiment has honored it as the tomb of Christ, scholars and explorers have not with any great degree of unanimity so regarded it. One of the great objections against it is that it was within the walls of the city, whereas the crucifixion and burial are said to have been outside the city.

WHY HER LIPS WERE WARM.—"My darling, you never have kissed me yet," he said.
"Haven't I?" she answered with a gurgling laugh.
"Never," he repeated, "and I wish you would now. Will you?"
She did.
"Ah!" he sighed, "how sweet it is to feel the pressure of your warm lips on my cheek."
"Do you know why my lips are so warm?" she asked.
"Because—because," he stammered.
"Because," she broke in, "no ice cream has passed them for ever so long."
He took the hint.—Toronto Globe.

A BOND OF UNION.

The antipathy of the English press and people to the Republican party and their corresponding friendship for the Democratic party is generally ascribed to the protective principles of the former and the tendency of the latter towards free trade. But is there not an underlying feeling growing out of past associations that binds English sentiment and interests to the Democracy. The main reliance of the Democracy today is in its "Solid South." It comprises the brains and the electoral votes of the party, and to this section and this political element the English have always been warmly attached. A nation ruled by aristocrats, they have regarded the Southern people as the best representatives of American aristocracy. The South in ante-bellum times was not, "in trade," the great mass of its citizens owned their "estates," they devoted their time mainly to politics and their out of door sports were not unlike those of the English. They kept their stables and their kennels, entertained liberally and were naturally regarded by their admiring English cousins as a superior race of beings to the "shopkeepers" and manufacturers of the north. When the rebellion broke out their sympathies were quickly and unmistakably manifested for the South. They supplied the Confederacy with cruisers and munitions of war, gave shelter to her citizens and afforded them all facilities for plotting and working against the Union cause. When the South required money the aristocracy of England furnished it. The great bulk of the several issues of Confederate bonds are now held by English noblemen. We, on this side of the water, laugh at the mere suggestion of the idea that the Federal government will ever pay those bonds, which were issued to aid in its destruction, and yet the delusive hope of such action is hugged by the English bondholders and is no doubt an important element in prompting the existing feeling. And there is some cause for it. It is a matter of fact that whenever the Democracy have put up a ticket which they regarded as inviolable, the quotations for Confederate bonds have advanced in England. This has invariably been the case, even up to and including the nomination of Hancock. Their apparent reasoning, though fallacious, no doubt seems to them extremely plausible. The Democratic party, they may say, has its main strength in the South; all of its Southern members were Confederates; they will always have a lingering love for the "lost cause," they must feel a sense of deep gratitude towards those who stood by them and assisted them; and this feeling must prompt a desire to repay pecuniary obligations thus incurred; the Democracy triumphant, the Confederates will be in the ascendant, with power to carry out this programme if they desire. That they entertain some such hope as this there is no doubt, for it is only within the past two or three years that a syndicate was formed in London for the purchase and concentration of the Confederate bonds held in England, and under their purchases the value of the bonds in the English market was for a time materially enhanced. There is no doubt but these operators are posted in the political prospects of the Democracy by shrewd observers on this side. During the Tilden campaign, when his supporters regarded his election as sure, Confederate bonds were in demand in London. The nomination of Hancock, which provoked a burst of enthusiasm, again gave them an impetus which waned with Hancock's prospects. But it is significant that since the nomination of Cleveland they have not been quoted, which would naturally indicate that the holders have received unfavorable advice concerning the prospects for his election. In this brief review of one of the bonds of sympathy existing between the Confederate English and the Confederates we have no wish to "wave the bloody shirt" nor to convey the impression that Democratic ascendancy may lead to the payment of the Confederate debt. The idea is absurd. The time has long since gone by for the accomplishment of such a purpose, even if it were ever contemplated, but we do insist that wherever and whenever the interest of England is aroused in the affairs of our Government, and manifests itself on one side or the other of any of our internal controversies it is always with unfriendly intent towards this nation, and the American people will be wise to take the other side.

It is stated in the Eastern papers that the recent drunken exhibition given by the slogger Sullivan, and the dishonesty of the management in keeping the money of those who had paid to witness a contest between the blackguard Champion and Mitchell, aroused such a feeling of indignation and disgust that no sort of contest in the athletic line between professionals will now draw a crowd. It is about time that the people ceased patronizing these swindling games. It was long since apparent that not one in a hundred of these contests were genuine, but in nearly every instance the programme is arranged beforehand between the principals as to which shall win, and they go through the form of a mighty struggle which is all a sham, and then divide the entrance money. The wrestler Muldoon made a moderate fortune in San Francisco before his game was discovered and so often were the patrons of athletic sports deceived by these hippodromes, that no announcement of a wrestling or boxing match, whoever the contestants may be, will now attract a crowd in that city. John L. Sullivan has done his first good public service in getting beastly drunk and the parties who filled him with gin are entitled to the thanks of a grateful people.

An item is going the rounds of the press to the effect that the Piate Indians are collecting and drying army worms for winter food. This statement is important—if true. If the Indians, and the army worm can thus be simultaneously and harmoniously utilized, it will go far to demonstrate the truth of the theory that all things created have their good purposes. If the army worm will furnish food for the Indian, then the cost of their subsistence may be reduced to the Government, while the agriculturist might be relieved of a destructive pest. Some years since, the army worm appeared in the Sacramento Valley in dangerous force, when a farmer turned twenty-five hundred hungry turkeys loose on them and they were speedily obliterated. From the observations we have had of the voracity of the average Piate we believe he can discount any ten gobblers at gobbling, and give them a peck the start. If the above report be true—which we beg leave to doubt—a happy reciprocity may be consummated between Nevada and California, the former furnishing the Indians and the latter the army worms, and each may thus rid the other of a nuisance.

The Washington Star says the impression seems to be that ex-Senator Wallace will be elected Chairman of the National Democratic Committee. It is thought Governor Cleveland prefers Manning of New York, but the understanding is that he (Manning) does not want the position. He has promised to devote his time to the canvass and to aid the committee to the full extent of his ability, but does not want to be responsible head. From good authority it is learned that Randall forbids the use of his name. He will not stand in Wallace's way. At Chicago Randall was ably and warmly supported by Wallace, and it is said, the former will do all he can to have the latter made Chairman of the committee.

W. S. Shelby, commander of the expedition sent to the rescue of the Greeley party, arrived at St. Johns, N. E., yesterday morning, with six of the survivors, including Lieutenant Greeley. They were found five miles off Cape Sabine, in Smith's Sound. Seventeen of the 25 persons comprising the expedition perished from starvation at the point where the survivors were found. The commander says sixty-eight hours delay in reaching them would have been fatal to all now living.

Charges that the Democratic party was looking for a barrel candidate are rather dashed by the discovery that Cleveland is taxed on only \$5,000 worth of property. If he were the "monopolist" which his enemies say he is, he ought to have accumulated more worldly substance than that.—Alta.

No one has charged that Cleveland was a monopolist, but only that he is the tool of monopolists. The above statement would show that he is a mighty cheap tool at that. The amount of work he has done for them deserves better recompense.

Since Kinkead's nomination as Governor of Alaska we have not heard much from those who declared a year ago that Kinkead would not receive a Federal appointment because Mackay and the Bonanza crowd would prevent Jones from interesting himself in the Governor's behalf.

General Butler denies the authenticity of the alleged interviews recently published by the New York Times and other papers, and says he will state his views and intentions over his own signature in due time.

Peter West, of Lovelocks, announces himself as a candidate for District Attorney of Humboldt county.

W. W. Rogers is a Republican candidate for Recorder and Auditor of Elko county.

The Dublin Freeman on Blaine.
Upon receipt of the news of Blaine's nomination the Freeman's Journal, of Dublin, had the following:
It (the nomination) will be hailed with unbounded satisfaction by the Irish in America, who have, no doubt, been instrumental in its accomplishment. Blaine has been always a steady champion of the Irish, and what is nearly as good—a stout opponent of British interests. His conduct especially in 1867-68 will be long and gratefully remembered by Irishmen. When in 1867 Augustus Costello was arrested in Ireland for a "treasonable" speech delivered by him in New York two years previously and sentenced to fifteen years' penal servitude, Blaine who was the Republican leader in Congress, made a series of powerful speeches in his behalf and in behalf of General D. F. Burke and others, which eventually succeeded in securing their liberation. They had the evidence of American citizenship in their possession, but they were disregarded as a defense, or as a protection against British law, and this aroused much excitement and indignation in the States. Blaine's advocacy induced Congress to demand the release of the Fenians from English custody, and when the British Cabinet refused, on the strength of the then existing treaty, the United States Government threatened reprisals with respect to British subjects then in the States. England, being well frightened, caved in, as became her, and Costello, Burke and the rest were released. This triumph was mainly due to the masterly advocacy of Blaine, and the leaning he then showed towards Irishmen has not since relaxed.

The "Star" Speaks.
New York, July 14th.—The Star, Kelly's organ, silent since the nomination, this morning denounces the methods by which Tammany was defeated and says the machine from Albany worked night and day with auxiliary power from the city of New York. Before the arrival of the Tammany delegation a character had been proclaimed for them, individually and collectively that would have made them undesirable companions. The machine ground out its libels with unsparring malignity. Private citizens in Chicago were operated on, and delegations from other States were influenced to evil thoughts. No wonder the proprietors of the Palmer House and other hosteleries hesitated to receive Tammany when cautioned that they were unsafe boarders. The old Know-Nothing exclusiveness betrayed itself in the National Democratic Assembly.

Pendleton on the Ticket.
Senator Pendleton, who has returned from Chicago, was seen by an Associated Press reporter, and expressed himself as follows, concerning the declaration of the convention on the question of civil service reform, that the declaration was satisfactory to civil service reformers and the nominations were alike satisfactory to them. He said that Cleveland and Hendricks were strongly committed to the reform of the civil service, and asked, "Who could desire a more absolute commitment to the doctrines of reform than the acts of Governor Hendricks?" Senator Pendleton referred to a speech by Governor Hendricks in 1872 and his letter of acceptance in 1876 in support of the assertion that the Governor is heartily in favor of civil service reform.

Hendricks Creates a Sensation Among the Department Clerks.
A New York Commercial's Washington special says: Hendricks' recent declaration that if the Democratic party attains power it must turn out Republican office holders, creates a sensation in the Departments here. As there are several hundred Democratic appointees, the question is asked, Will this attack upon civil service principles by the Democracy affect their present tenure of office? Of course the Republican appointees will naturally stand together for Blaine, and there will be no more Independentism. Meantime the question is asked, How will Curtis and his fellow Independents relish this attack on civil service reform by Hendricks? His speech is certain to be the battle cry of the Democratic rank and file, whatever their leaders may protest.

The Prohibitionists.
The New York Sun says: For the first time in history the advocates of prohibition are likely this year to make a decided figure in the national election. They are bound to support their own candidate for President. We suppose Gov. St. John of Kansas will be their man. It is a big idea and sure to have a great many conscientious supporters. This State has fifty thousand prohibition votes, which will be cast mainly at the expense of the Republican party. The Democrats have never had Prohibitionists among them. They favor free liquor and plenty of it. Whatever the political results, we bid the Prohibitionists God speed in their efforts.

There is a three-cornered contest between Randall, Senator Gorman and ex-Senator Wallace for the Chairmanship of the Democratic National Committee.

It is said that Mahone insists upon managing the Republican campaign in Virginia.

AN APPEAL FOR FUNDS.
The Republican National Committee Invites Friends of the Party to Send in Contributions.
The following circular has been issued from the headquarters of the Republican National Committee:
DEAR SIR: The pending political campaign is of unusual importance to the country. Every Republican is deeply interested in its results. The National Committee, in behalf of the Republican party, desires to make it justly vigorous and effective and success sure in November. Funds are required, however, to meet the lawful and proper expenses of the campaign, and to provide the same the committee finds itself dependent upon the liberality of Republicans to make such voluntary contributions as their means will permit or as they feel inclined to give. You are, therefore, respectfully invited to send, as soon as you conveniently may, by draft on New York or postal money order to B. F. Jones, Chairman of the Republican Committee, 242 Fifth Avenue, New York city, such sum as you may desire to contribute for the objects before mentioned. A receipt for the same will be sent by return mail. The committee cheerfully calls the attention of every person holding any office, place or employment under the United States or any departments of the Government to the provisions of the Act of Congress entitled "An Act to regulate and improve the civil service of the United States," approved July 16, 1883, and states that its influence will be exerted in conformity therewith. Respectfully
B. F. JONES, Chairman.

The Beebe Trial.
The trial of Burr Beebe for the murder of N. A. Phillips near Cedarville on the 12th of April last is occupying the attention of the Superior Court of Modoc county at present. The prosecution consists of the District Attorney, assisted by Gen'l John R. Kiltrell, of Modesto, and F. W. Ewing, of Alturas. The defense is represented by Hon. J. J. May and J. M. McDonald, Jr.
The crime for which Beebe is being tried was committed on the 12th of April of the present year. Beebe and Phillips lived on adjoining farms and the deceased had been using a road on the Beebe farm and it was over this road that the trouble originated. Beebe fenced the road and Phillips tore the fence down. The prosecution claim that Beebe and his brother lay in wait for the deceased and provoked the quarrel which ended by Burr Beebe killing Phillips in cold blood. On the other hand the defense claims that no such state of facts exists. That on the contrary the defendant had started to Cedarville to have Phillips arrested for trespass, and that while on the way he was overtaken by Phillips, was assaulted by him, and that the consequent killing was a necessary measure of self-defense. That after the killing he (Beebe) came to Cedarville and voluntarily surrendered himself into the custody of Justice A. K. Long.
Up to this writing but three witnesses had been examined for the prosecution, and the case is likely to last well along into next week.—Northern Picket 12th.

WORK OF THE SESSION.—The Congress that has just adjourned has little to boast of. About eleven thousand bills were introduced in the two Houses; only three hundred, or thereabouts, became laws. Aside from the appropriation bills, not more than six of the measures passed were of national importance. These were the Dingley shipping bill, the bill providing civil government for Alaska, the bill to establish a bureau of labor statistics, a bill reducing postage on transient newspapers, another repealing the test oath, and a bill limiting the time for prosecuting violations of the internal revenue laws. We must not omit to mention, however, that the amendments to the Chinese restriction law were adopted, and that the President gave them his approval. Whether this would be considered an act of national importance or not is according to the view taken of the question. We are grateful for it on the Pacific Coast nevertheless.—S. F. Call.

The selection of Joseph McKenna by the Third District Convention is an earnest manifestation that the Republicans mean to put up good men in this campaign. The nominee is entitled to the recognition accorded him by the party, as he stood in the breach in two campaigns when the odds were overwhelmingly against the election of a Republican. McKenna has a clean record and will not weight the ticket as other candidates might have done. The gerry mandering tactics of the Democrats made the Third district a sure thing for the Republican candidate, and McKenna will therefore have a walkover.—S. F. Chronicle.

It is true Grover Cleveland received a sudden elevation when elected Governor of New York. But the State increased her voting population 25,000 and yet Grover Cleveland polled but 807 votes more than General Hancock, and 20,226 less than General Garfield. He was elected Governor of New York by a large majority, due to the refusal of 140,000 votes to go to the polls. But the next year they went to the ballot-box, and by an overwhelming majority reversed the Cleveland victory and seated a Republican Legislature and State officers.

A Washington dispatch says Senator Fair has returned. He believed that Bayard was the best man and that Cleveland was one of the weakest that could be nominated. He has surrendered his opinions on the subject, and has promised to do all he can for the success of the Democracy, but Fair is by no means enthusiastic on the ticket.

The bond of union between England and the Democracy—the Confederate bond.

THE CRADLE.
MORRIS—In Reno, Nevada, July 16th, 1884, to Mr. and Mrs. Henry Morris, a son.

MISCELLANEOUS.
To Dyspeptics.
The most common signs of Dyspepsia, or Indigestion, are an oppression at the stomach, nausea, flatulency, water-brash, heart-burn, vomiting, loss of appetite, and constipation. Dyspeptic patients suffer untold miseries, bodily and mental. They should stimulate the digestion, and secure regular daily action of the bowels, by the use of moderate doses of
Ayer's Pills.
After the bowels are regulated, one of these Pills, taken each day after dinner, is usually all that is required to complete the cure.
AYER'S PILLS are sugar-coated and purely vegetable—a pleasant, entirely safe, and reliable medicine for the cure of all disorders of the stomach and bowels. They are the best of all purgatives for family use.

M. Fitzpatrick, a Gold Hill hotel keeper, drove down early yesterday morning to purchase supplies for his hotel. He made his purchases and left for home at noon. This speaks well for the Reno market, and also for the snap and enterprise of our merchants.

DAVID McCLURE.

The Leader of the Young Republicans of California Smiling and Confident.

Hon. David McClure, representing the Tenth Senatorial District (old apportionment) in the California Senate, passed through on his way home Wednesday evening, accompanied by his wife. The Senator was in the enjoyment of perfect health, and was in high spirits over the political prospects. A reporter of the JOURNAL had a brief chat with him at the depot, in which he expressed unbounded confidence in the election of Blaine.

"What is the prospect in New York?" asked the reporter.

"Well, sir, I shouldn't be surprised if New York gave 100,000 majority for Blaine. The general impression seems to be that the principal opposition to Cleveland in that State comes from the city, but that is not so. In western New York the feeling against him is intense, and more bitter, if such a thing were possible, than in the city. The Blaine feeling is strong everywhere, and I can't see any possibility of his defeat."

In regard to the Congressional fight in San Francisco, Senator McClure stated that he was averse to entering it, and would not if Morrow desired to run. His law practice was constantly increasing, and an election to Congress would seriously injure it if not destroy it, without any compensating benefits. He had no doubt however but with Democratic splits and squabbles on the one side, and an enthusiastic and united Republican party on the other, the city would give a good majority for the Republican ticket.

He expressed himself as especially well pleased with the nomination of McKenna, and thought that the Republican feeling was running so high that there was a fair prospect of making a clean sweep.

Board of Pardons

The Board of Pardons, which has been in session at Carson for three or four days, has concluded its labors with action on the following cases:

Tom Flynn, Ormsby, murder in second degree, August 29, 1885, life, refused.

Dan McMahon, Washoe, arson, February 15, 1882, three years, refused.

John Leonard, White Pine, manslaughter, June 6, 1877, ten years, refused.

Henry Wells and W. H. Edley, Lander, October 17, 1883, for killing cattle, pardoned.

Ah Chew, Humboldt, murder in the second degree, December 15, 1873, fifteen years, commutation.

Jerry Caffney, Nye, murder in second degree, twenty-eight years, refused.

Ah Chowey, Washoe, murder in first degree, March 10, 1879, life, refused.

The following cases were continued: Tom Kelley, Tom McDowell, Frank McIntyre, Louis Baddaracca, Owen Ferguson, Man Town.

Restored to citizenship: Daniel Boxter, John Rice, and John Jack John.

Refused restoration: Horace Lapior.

Bad News for Fishermen.

R. H. Buckingham, President of the California Fish Commission, has received a letter from Livingston Stone, United States Fish Commissioner, which contains bad news for those interested in the welfare of the fisheries on this coast. It is nothing more or less than that the Government has decided to no longer maintain the United States hatchery on the Cloud river. This hatchery contributed more than any other to the propagation of the finny tribe on this coast, and its loss will be particularly felt by those engaged in salmon catching and canning industry on the Sacramento. No reason is given for this action, but it is probably owing to lack of funds and disasters from flood which have recently befallen the hatchery.

The Change in Time.

The Bulletin reiterates the statement made by it about ten days ago, concerning a proposed change in the morning time on the C. P. R. R., and says that the arriving time for the Central Pacific express train will be changed in a few days from 7:40 A. M. to 11:10 A. M. Part of this change will be necessitated by the later arrival of the Union Pacific express, west-bound, at Ogden, and part will be owing to slower running time on the Central Pacific east of Truckee. This would bring the West-bound trains to Reno between 9 and 10 o'clock P. M.

Lake Lahontan

Prof. J. S. Dillen, Assistant Geologist of the U. S. Geological Society, returned from a visit to Pyramid Lake Wednesday evening. His visit was for the purpose of ascertaining the exact altitude of the present surface of the lake. The Professor gives it as his opinion that the whole basin, including Pyramid and Mud lakes and the sinks of the Humboldt and Carson rivers, was a prehistoric lake, which he calls Lake Lahontan. There are also unmistakable evidences that the surface of the ancient body of water was considerably more than 400 feet above the surface of Pyramid lake at its present stage.

EXCITEMENT IN TRUCKEE.

Suspicious of Foul Play Caused by the Sudden Death of a Cat.

A Truckee dispatch of Tuesday gives the following particulars of an exciting scene in Truckee:

A lady by the name of Mrs. King, who lately arrived from Reno, and who bears the reputation of being an eccentric character, was accused of attempting to poison a Mrs. Plumb. At noon Mrs. King, who lives next door to Mrs. Plumb, called on the lady and presented her with a dish of green corn. Trouble had existed between the husband of Mrs. Plumb and Mrs. King, and as he came to dinner the dish was set before him. He objected to eating it and the saucer was set down for the cat to eat, which the cat did not fail to do. In less than fifteen minutes the cat was dead, and at once the rumor spread that Mrs. King had tried to poison Mrs. Plumb. The balance of the dish was secured, and this evening interesting experiments are going on to determine whether the corn was poisoned or not. A cat has been fed and has eaten all that was left of the dish, and an anxious crowd are watching whether the cat will die or not. Should death come to the cat other developments will follow, as a complaint is ready for signature. Mrs. King in an interview says that Plumb has made many improper overtures to her which she has repulsed, and that she is ready to substantiate the fact before a Court. Rich and racy developments are promised.

Perhaps!

Jesse D. Carr, of California, who with several other gentlemen went to Chicago in the interest of Judge Field, went west Tuesday evening on his return home. Jerry Schoeling was at the depot and asked the old gentleman what he thought of the situation. "Oh, entirely satisfactory," said he with a roguish twinkle in his eye, "We'll maul out the Repubs this time, sure, sure—perhaps." The significant manner in which this bit of information was given caused a laugh all around and settled the interview so far as politics was concerned.

N. D. Landrum, an eccentric individual who arrived in town from the East a week or so ago and has since managed to eke out an existence by soliciting alms on the streets, was yesterday sent over the river for ten days on a charge of vagrancy. He claims to have lived for twenty years at Stockton, Cal., but could give the name of no one living in that city, nor could he remember where he last worked. The officers believe him to be a fit subject for an Insane Asylum.

Henry Morris was exceedingly good natured yesterday, the cause of which may be ascertained by consulting a notice under the head of born.

THE BORAX HARVEST.—The present warm spell of weather is the opening of the harvest among the people engaged in borax mining south of here. Cross & Trudo are about starting up their new works, and it is learned the Pacific Borax Works have been leased and will soon be in active operation. In addition there are several small ones and all of them running to their fullest capacity. There are over sixty men at work, near Columbus and south of there, who, it is estimated, will produce from seventy to a hundred tons of the mineral per month for the next three months.—Candelaria True Fissure.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-1yr

When the organs of secretion become inactive by reason of a cold or other cause, the inflammatory material should be removed and healthy action restored. Ayer's pills accompany this quickly, safely and surely. Much serious sickness and suffering might be prevented by promptly correcting such derangements which often develop into settled disease.

PLATFORM OF THE NATIONAL REPUBLICAN PARTY.

Adopted by the National Republican Convention at Chicago.

The Republicans of the United States, in national convention assembled, renew their allegiance to the principles upon which they have triumphed in six successive Presidential elections and congratulate the American people on the attainment of so many results in legislation and administration, by which the Republican party has, after saving the Union, done so much to render its institutions just, equal and beneficent, the safeguard of liberty and the embodiment of the best thought and highest purposes of our citizens. The Republican party has gained its strength by a quick and faithful response to the demands of the people for freedom and equality of all men for a united nation, assuring the rights of all citizens, for the elevation of labor, for an honest currency, for purity in legislation and for integrity and accountability in all the departments of the Government, and it accepts anew the duty of leading in the work of progress and reform.

We lament the death of President Garfield, whose sound statesmanship, long conspicuous in Congress, gave promise of a strong and successful administration, a promise fully realized during the short period of his office as President of the United States. His distinguished success in war and peace has endeared him to the hearts of the American people. In the administration of President Arthur we recognize a wise, conservative and patriotic policy, under which the country has been blessed with remarkable prosperity. We believe his eminent services are entitled to and will receive the hearty approval of every citizen.

It is the first duty of a good Government to protect the rights and promote the interests of its own people. The largest diversity of industry is most productive of general prosperity and the comfort and independence of the people, the taxpayers, without injuring the laborer or the great productive interests of the country.

We recognize the importance of sheep husbandry in the United States, the serious depression which it now experiences, and the danger threatening its future prosperity, and we therefore respect the demands of the representatives of this important agricultural interest for the readjustment of the duty upon foreign wool, in order that such industry shall have full and adequate protection. We therefore demand that the imposition of duties on foreign imports shall be made not for revenue only, but that in raising the requisite revenue for the Government such duties shall be so levied as to afford security to our diversified industries and protection to the rights and wages of the laborer, to the end that active and intelligent labor, as well as capital, may have its just reward, and the laboring man his full share in the national prosperity.

Against the so-called economic system of the Democratic party, which would degrade our labor to the foreign standard, we enter our earnest protest. The Democratic party has failed completely to relieve the people of the burden of unnecessary taxation by a wise reduction of the surplus. The Republican party pledges itself to correct the irregularities of the tariff and reduce the surplus, not by the vicious and indiscriminate process of horizontal reduction, but by such methods as will relieve the taxpayer without injuring the laborer or the great productive interests of the country. The Republican party favors a policy which shall keep us from entangling alliances with foreign nations and which gives us the right to expect that foreign nations shall refrain from meddling in American affairs. The policy which seeks peace can trade with all Powers, but especially with those of the Western Hemisphere.

We demand the restoration of our navy to its old-time strength and efficiency, that it may in any sea protect the rights of American citizens and the interests of American commerce, and we call upon Congress to remove the burdens under which American shipping has been depressed, so that it may again be true that we have a commerce.

It is the duty of Congress to enact such laws as shall promptly and effectually suppress the system of polygamy within our Territories, and divorce the political from the ecclesiastical power of the so-called Mormon Church, and that the laws so enacted should be rigidly enforced by the civil authorities, if possible, and by the military, if need be.

The people of the United States, in their organized capacity, constitute a nation and not a mere confederacy of States. The National Government is supreme within the sphere of its national duty, but the States have reserved rights which should be faithfully maintained.

We have always recommended the best money known to the civilized world, and we urge that efforts should be made to unite all the commercial nations in the establishment of an international standard, which shall fix for all the relative value of gold and silver coinage.

The regulations of commerce with foreign nations and between the States is one of the most important prerogatives of the general Government, and the Republican party distinctly announces its purpose to support such legislation as will fully and efficiently carry out the constitutional power of Congress over interstate commerce.

The principle of the public regulation of railroad corporations is a wise and salutary one for the protection of all classes of the people, and we favor legislation that shall prevent unjust discrimination and excessive charges for transportation, and that shall secure to the people and the railways alike the fair and equal protection of the laws.

We favor the establishment of a national bureau of labor, the enforcement of the eight-hour law, and a wise and judicious system of general education by adequate appropriations from the national revenue where the same is needed.

We believe that everywhere the protection accorded to citizens of American birth must be secured to citizens by American adoption, and we favor the

settlement of national differences by international arbitration. The Republican party, having its birth in a hatred of slave labor and a desire that all men may be truly free and equal, is unalterably opposed to placing our workmen in competition with any form of servile labor, whether at home or abroad. In this spirit we denounce the importation of contract labor, whether from Europe or Asia, as an offense against the spirit of American institutions, and we pledge ourselves to sustain the present law restricting Chinese immigration and to provide such further legislation as is necessary to carry out its purposes.

The reform of the civil service auspiciously begun under Republican administration should be completed by the further extension of the reform system already established by law to all grades of the service to which it is applicable. The spirit and purpose of the reform should be observed in all executive appointments and all laws at variance with the object of existing reform legislation should be repealed, to the end that the dangers to free institutions which lurk in the power of official patronage may be wisely and effectively avoided.

The public lands are a heritage of the people of the United States and should be reserved, as far as possible, for small holdings by actual settlers. We are opposed to the acquisition of large tracts of these lands by corporations or individuals, especially where such holdings are in the hands of non-resident aliens, and we will endeavor to obtain such legislation as will tend to correct this evil. We demand of Congress the speedy forfeiture of all land grants which have lapsed by reason of non-compliance with the acts of incorporation, in all cases where there has been no attempt in good faith to perform the conditions of such grants.

The perpetuity of our institutions rests upon the maintaining of a free ballot, honest count and correct returns. We denounce the fraud and violence practiced by the Democratic party in the Southern States, by which the will of the voter is defeated, as dangerous to the preservation of our free institutions, and we solemnly arraign the Democratic party as being the guilty recipient of the fruits of such fraud and violence. We extend to the Republicans of the South, regardless of their former party affiliations, our cordial sympathy, and pledge to them our most earnest efforts to promote the passage of such legislation as will secure to every citizen of whatever race and color the full and complete recognition, possession and exercise of his civil and political rights.

Appointments by the President to offices in the Territories should be made from bona fide citizens and residents of the Territories wherein they are to serve.

The grateful thanks of the American people are due to the Union soldiers and sailors of the late war, and the Republican party stands pledged to provide suitable pension for all who were disabled and for the widows and orphans of those who died in the war. The Republican party also pledges itself to the repeal of the limitation contained in the Arrears of Pensions Act of 1879, so that all invalid soldiers shall share alike and their pensions begin within the date of disability or discharge and not with the date of the application.
